## **ACTS signs six-year purchase & repair agreement with Hamilton Sundstrand**

**MONTREAL**, July 14, 2008 — ACTS announced today that it has signed a six-year agreement with Hamilton Sundstrand, an original equipment manufacturer (OEM) of aerospace and industrial products and a subsidiary of United Technologies Corp.(NYSE:UTX), for the exclusive supply of spare parts support and repair services on select airframe and engine components.

Under the agreement, Hamilton Sundstrand will supply aircraft parts and repair services to support ACTS operations across all aircraft types that ACTS maintains. ACTS will also have full access to Hamilton Sundstrand's OEM technical publications and will be authorized to operate as a warranty repair facility with full administration rights to support customers' warranty requirements.

"This strategic alliance is important for ACTS, and we are very pleased that one of the most reputable names in the industry recognizes the quality and excellence of the services we provide," says Danny Di Perna, Senior Vice President, Operations. "Our partnership will enable us to access new client opportunities with greater ease, in an increasingly competitive marketplace."

"We are extremely proud of our association with ACTS," said Mike Dumais, Hamilton Sundstrand Customer Service Vice-President and General Manager. "They are great customers and we're delighted to offer them solutions that support their capability, increase their product offerings to their customers and reduce their overall costs."

"This agreement enhances both our internal and cost capabilities, which continue to evolve to better address the needs of our customers," added Mr. Di Perna.

With 2007 revenues of \$5.6 billion, Hamilton Sundstrand employs approximately 19,000 people worldwide and is headquartered in Windsor Locks, Conn. Among the world's largest suppliers of technologically advanced aerospace and industrial products, the company designs, manufactures and services aerospace systems and provides integrated system solutions for commercial, regional, corporate and military aircraft. It also is a major supplier for international space programs.

United Technologies Corp., based in Hartford, Conn., is a diversified company providing high technology products and services to the building and aerospace industries worldwide.
